

# MARIANA CARVALHO

**A LEVELS STUDIED: CHEMISTRY, BIOLOGY, MATHEMATICS AND MUSIC TECHNOLOGY (AS) - ACCOUNT MANAGER - PERKINELMER**

**UNIVERSITY COURSES:** Cardiff University, BSc Chemistry

**CURRENT ROLE:** Account Manager for Reproductive and Women's Health (prenatal and newborn screening solutions)

**PLACE OF WORK:** PerkinElmer - Newport Lighthouse Lab

In September 2020, I started working as a Laboratory Technician at PerkinElmer's COVID-19 Newport Lighthouse Lab (COVID-19 PCR testing); In June 2021 I was promoted to Innovation and Improvement Specialist at the same laboratory. Later in October, I was promoted to Account Manager for Reproductive and Women's Health (prenatal and newborn screening solutions).

One of the things I enjoyed most about Trinity was the support of the teachers and their open-door policy; They were always willing to help, whether that was during lesson time or after school hours. Another thing I enjoyed about Trinity was the variety of subject options for GCSE and A-level. Especially coming from a different country, I never knew I'd be able to combine my love of science and music and study both at A-Level.
